PERSONAL PROFILE

Second-year BSc (Hons) Computing student with hands-on experience building React applications, including a real-world appointment booking system and an interactive expense tracker dashboard. Proficient in React, Tailwind CSS, JavaScript (ES6+), and React Router. Passionate about crafting clean, responsive UIs and eager to contribute to a frontend development team as an intern.

EDUCATION

BSc (Hons) Computing | Itahari International College, Nepal 2024 – Expected 2027
+2 Level (Science) | Siddhartha Boarding School, Damak, Nepal Completed 2024

PROJECTS

Kristy's Nailz — Appointment Booking System | React · React Router · Tailwind CSS · JavaScript 2026

- Built a full appointment booking and management system using React and React Router for multi-page navigation.
- Implemented search and filtering to let users find and manage bookings efficiently.
- Used localStorage for persistent state across sessions without a backend.
- Developed a responsive gallery and navigation with Tailwind CSS for a polished, mobile-friendly UI.

Expense Tracker Dashboard | React · JavaScript · Tailwind CSS · Recharts 2026

- Created a feature-complete expense tracker with category management, CRUD operations, and state management.
- Integrated Recharts to display interactive charts and data visualizations for spending insights.
- Managed complex component state cleanly using React hooks (useState, useEffect).
- Designed a clear, responsive dashboard layout using Tailwind CSS utility classes.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router

Data Visualization: Recharts, Matplotlib, Seaborn, Power BI

Data & Backend: Python (Pandas, NumPy), SQL, data cleaning & EDA

Tools & Workflow: Git, GitHub, VS Code, npm

ACHIEVEMENTS & ACTIVITIES

- Independently built and shipped two complete React applications demonstrating real-world frontend skills.
- Self-taught React.js, Tailwind CSS, and Recharts outside formal curriculum and applied them in live projects.
- Analyzed 18,000+ data records across independent projects, demonstrating analytical thinking alongside frontend skills.
- Active GitHub contributor maintaining documented repositories with professional development practices
